

Case Studies

Sampath

Sampath is the second son of Ilaiiah and Padma .On having the child the members of the family felt very happy because the boy had very innocent looks. And the elder son was studying 7th class. After that the parents identified the child is abnormal and there was no physical moment in the child. It was shocking to the parents. They met several doctors and the specialists with the advice of well wishers but there was no hope of recovery. The boy used to lay on bed as a doll, Padma took much attention on the child.

The CBR team identified Sampath who was in need of regular physiotherapy and the specialist started his effort to make him as normal. Gradually there was good improvement in Sampath. The specialist RPs and CBRWs took the boys issue as challenge and made a regular follow up and put much attention on him. Sampath mother was impressed with the dedicated work done by the team of NPdo and in addition to that she followed the instructions given by specialist. Now sampath is able to sit and observe the locations and able to give some response through actions.

Sam paths mother Padma joined as a member in the group and received awareness about the benefits of the parents of the disable children offered by the govt. She took the lead to sensitize the local leaders to avail the services at EGS program implemented by the government. The parents group was successful in fighting for their rights.

Padma expressed her heart full thanks to NPdO team for giving confidence to exist in the society and providing knowledge about the government policies and schemes that she was not aware.
